

SEMINARPROGRAMM Leadership

■ CHARISMA GRAMMAR - Can you still remember how naturally, enjoyably and quickly you learned new skills when you were a small child?

Zielgruppe: Führungskräfte und /oder Angestellte, an die höchste Anforderungen gestellt werden.
Das Seminar wird nur in Englisch angeboten.

Das Programm: Charisma Grammar is a unique system, special in 5 major ways.

1. Instead of focusing exclusively on neocortical learning it relies on more primary, more potent parts of our brain architecture, such as the limbic system and the brain stem. In simple words, Charisma Grammar offers you an opportunity not only to understand charisma but to become a charismatic personality – to imbibe charisma into your nature!

2. Imagine a computer with a lot of applications but a weak core processor...

What most other courses concentrate on are management “applications”: how to deal with different people, different situations, different issues, etc. While useful, these tactics depend on the ever-changing context and thus can never be fully under your control.

Charisma Grammar believes that it is your personality core that makes a real leader. If your core is strong and stable, you will be able to deal brilliantly with any context. And your personality core is always under your exclusive control, for it is entirely up to you how to shape it.

3. In Charisma Grammar a special “membo learning” model has been developed: an organic, innovative synthesis of modern psychology and time-honoured traditional systems. It includes elements from evolutionary cognitive psychology, NLP, neo-Reichian and neo-Jungian approaches, transpersonal psychology, yoga, qigong, huna, and meditation, to name just a few. “Membo learning” is also completely different from dry data cramming we had at school; it is as enjoyable and natural as it is effective.

4. Charisma Grammar trains not just one but all the four known aspects of charisma:

- charismatic communication
- charismatic public image
- charismatic personality
- charisma as a gift of “chosenness”

5. Out of the three modules offered in Charisma Grammar, the third, advanced one, is outstanding in both its content and methodology. Its goal is to bring about a qualitative transformation to a new, much higher level. To use a metaphor, it is similar to when – having learned to express yourself in another language well – you realise how this mastery can be used for so many other great things: joking, making new friends, being able to enjoy and participate in this culture, etc., etc., etc. The advanced module is the point at which your charisma becomes a gift shining through every aspect of your life and progressively helping you to experience and express your authentic, powerful nature! Here, in addition to the “membo learning”, a new advanced method is introduced, which has traditionally been used at high stages of yoga/qigong and which ought not to be explained online.
