

SEMINARPROGRAMM KOMMUNIKATIONSTRAINING

■ **Body Language**

Copyright © 2008-2010 www.vdonskoi.com, Vladimir Donskoi

Zielgruppe: Führungskräfte und /oder Angestellte, an die höchste Anforderungen gestellt werden.
Das Seminar wird nur in Englisch angeboten.

Das Programm: The aim of this course is two-fold. On the one hand, it seeks to provide you with a compact and yet comprehensive system of understanding other people's body language. On the other hand, Body Language should help you to master your own, individually specific body language to your greatest advantage.

What are the unique features of Body Language?

1. The purpose of this course is not to provide you with a long, difficult-to-remember listing of numerous gestures but with an elegant system that you can practically apply.
2. The course goes beyond explaining the five main elements constituting body language (gestic, eye contact, use of space, synchronisation, and touching) by also addressing more advanced and powerful aspects, which are usually not taught.
3. Instead of simply informing you that you "should" use this or that body language in a particular situation, the course aims at a smooth and organic integration of body language patterns. In other words, in real social interactions, effective body language is to happen naturally and not in an artificial, acted manner, when a person is constantly thinking which gesture or eye movement to use.
