

SEMINARPROGRAMM Leadership

■ Leadership Training

Copyright © 2008-2010 www.vdonskoi.com, Vladimir Donskoi

Zielgruppe: Führungskräfte und /oder Angestellte, an die höchste Anforderungen gestellt werden.
Das Seminar wird nur in Englisch angeboten.

Das Programm: As the title suggests, this training is designed for people in leadership positions who are open to the idea of developing their skills in this area further. And, like other courses in this series, this one focuses on personality development: i.e. on offering you a new paradigmatic vision, on allowing you to see your own areas for improvement, and on helping you to integrate new knowledge so that it becomes your second nature. In other words, this training is definitely not for those who wish to participate in yet another theoretical seminar and to just add another pro forma qualification to their CV.

We will discuss what makes a real leader a) from the interpersonal perspective (i.e., his/her interactions with people), b) from the psychological perspective (i.e., his/her mindset), and c) from the image-making perspective (i.e., his/her public persona). Particular attention will be paid to the two opposing types. One is the managerial leader and the other is the charismatic leader.

This clear yet very essential distinction will help you to understand which areas of your own personality you should develop and how. Leadership Training will also contain many different practical exercises for skill integration.

I would also like to express my strong hope that the knowledge gained through Leadership Training will be highly beneficial for you not only in your professional life but in your private and social life as well.
